### PANEL 1

The guard whom the faerie queen bumped into is now holding her wings between index and thumb, examining her with his blank, confused stare. The queen looks surprised.

FAERIE QUEEN

What's this?

(cont'd)

Palace guards? Here?

GUARD

Queeeeen...?

FAERIE QUEEN

Have I been BETRAYED?

### PANEL 2

Zoom out. The faerie queen has escaped the guard's fingers and is flying backwards, facing him angrily. He and a few more busty guards are moving toward her, arms outstretched like blank-stared zombies.

FAERIE QUEEN

No matter! These peons are no match for me.

GUARDS

(floating, tail-less balloons)

Subdue.

Smother.

Subjugate.

### PANEL 3

Wide panel, double-height. The faerie queen hovers sternly in the middle of the panel, being approached from both sides. Arms outstretched in each direction, she casts streams of magic that hit several guards on each side of the panel. At left, the one closest to her now has boobs the size of beanbag chairs, his chest pressed against the ground from their immense weight. The one right behind has pulled the giant-boobed guard's pants down and is hunched over him, screwing him from behind. Again behind that one, a third one has sprung a MASSIVE erection that has

punched right upward (springing out of his pants) and is knocking him out (head thrown back from the impact). At right, another guard is facing us, pressing his hands and squishing his covered boobs against the panel as if against an invisible window. There is another guard behind him reaching around inside his pants and obviously stroking his large erection (also covered). A third guard has been stripped of clothing and his manhood, now resembling a buff female; "she's" on her hands and knees, with one hand between her legs stroking herself. Note: all guards have drunk-like grins and are TREMENDOUSLY enjoying themselves.

SMACK

CAPTION

(top left)

Predictably, the faerie queen unleashed a torrent of lewd magic against her assailants.

CAPTION

(bottom right)

Much to their evident delight.
